

Freedom of Information Request FOI 20 65

Medical Training Costs/Clinical Governance (CG) framework

Query & Response

Qu1. What was the organisation’s annual spend on medical training during the most recently available financial year?

Most training is delivered internally by Casualty Care Instructors, employed by us.

In addition to this, the spend attributed to First Aid in the financial year 2019/20 was as follows:

Description	Text	Amount
Training - Course Expenses	Casualty care for fire and rescue x 80	£2,519.20
Training - Course Fees	First Response Emergency Care Level 3 (FREC3) course	£390.00
Training - Course Fees	First Response Emergency Care Level 3 (FREC3) course	£450.00
Training - Course Expenses	Kit for resuscitation training and carriage	£298.76
		£3,657.96

How much was spent on which level of medical training?

Firefighters are trained to the equivalent of Level 3 First Aid at Work. This is a bespoke internally designed course and not accredited to any awarding body.

Qu2. Is the organisations medical training (either in part or whole) provided by a commercial enterprise, if yes, what was the annual spend on commercially delivered medical training during the most recently available financial year?

No

Qu3. Does the organisation have a Clinical Governance (CG) framework? If yes, is the framework provided by a commercial enterprise or is the CG framework from within the organisation?

We use the Royal College of Surgeon’s PHEM matrix.
