

Freedom of Information Request FOI 20 74

Location of Fire incidents of outdoor vegetation/grassfires

Query

Further to my previous request (FOI 20 56), is it possible to also get the county, or further details about the location. I am struggling to locate the places, and separating Dorset fires from others. I would be very grateful if it were possible to get this data set with the unitary authority/county/something similar included.

Response

Please see the attached Excel Spreadsheets for detail going back to 2009 for Wiltshire Area and April 2010 for Dorset Area.
