

Freedom of Information Request FOI 21 85

Number of incidents involving building collapse on school and sixth-form sites

Query and Response:

I wanted to ask under freedom of information for:

- The number of incidents reported to the fire and rescue service which had involved any part of buildings collapsing on school and sixth-form sites (council and academies, independent and state), or if this is not captured in this way, then the next recognised category/categories 'up' that you think this might fall under (e.g. something like 'making structures safe'/'rescue' or 'education' sites).

I'd be grateful primarily for this information for 2021 so far and for 2020. If it doesn't exceed the max resources you can allocate to this, I'd be grateful for 2019 and 2018 as well.

We don't have any of these type of incidents recorded at schools.

- Then on top of that, if this also doesn't exceed the resource limit, secondly I'd be grateful for a list of the actual names, or failing that the street and postcode, of the sites attended, working backwards from the most recent to the start of 2020.

See above response.

Information/Detail accurate on the date provided: 30, November 2021
