

Freedom of Information Request FOI 22 26

Polyfluoroalkyl Substances (PFAS) & Foam Systems

Query and response:

I am requesting freedom of information from your fire service to request whether.

- Your fire service has ever used Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) for firefighting purposes?

No

- What firefighting foam/s system/s did your fire service use?

We use both fluoroprotein and synthetic foam concentrates.

- If available what type of PFAS were these foams?

Not applicable.

- What dilution was used in firefighting foams by your fire service?

We have different dilution rates from 0.5 to 6% depending on the application.

- From what years would your fire service use these firefighting foams?

Over the previous 10 years based on our current foam concentrates.

- Does your fire service have a current policy regarding PFAS firefighting foams?

No

- Does your fire service have a policy regarding the disposal of PFAS firefighting foams held by your fire service?

No

- Do you have stock information on the PFAS containing products?

We have no stock information.
