Reported fires and RTCs attended in Beaminster Tunnel

Query and response:

I am working on a Quantitative Risk Assessment for Beaminster Tunnel. Would it be possible to know if there have been any reported fires and RTCs attended in these tunnels from your mobilising system if available in the past 20 years?

Beaminster Tunnel or Horn Hill Tunnel is a 345-foot-long (105 m) road tunnel on the A3066 road between Beaminster and Mosterton in Dorset, England.

We have searched our mobilising system from when it went live in 2015 and we have found the following incidents within the Beaminster Tunnel:

May 2017 - RTC

April 20219 - Large Vehicle Fire

Information/Detail accurate on the date provided: 26, April 2022
