

Freedom of Information Request FOI 22 51

Statistics relating to the number of Construction site fires for the past five years

Query:

We would like to request under 'the freedom of information act' the statistics relating to the number of Construction site fires for the past five years. We would like the information as follows:-

1. Number of Fires caused as a result of the construction process and the specific cause .
2. Number of Fires caused by non related construction processes.

Response:

Our incident recording system does not specifically record when an incident occurs as the result of the construction process, however, we do record whether or not a building is currently under construction within the occupancy status.

Please find attached a list of incidents that have occurred, between 1 January 2017 and 31 December 2021, at buildings where the occupancy status is recorded as "No, under construction".

Information/Detail accurate on the date provided: 14, July 2022
