### Financial cost of crewing shortfalls at Wilton

#### Query:

Can you please tell me how much money was spent in the last financial year on crewing shortfalls to enable fire engines to be manned.

I am looking at Wilton in particular.

#### Response:

**We spent £6,669.45 on crewing shortfalls at Wilton during the 2021/22 financial year. This is based on the cost of employees to the service per hour and not the rate of pay, so it includes pension costs, NI contributions etc.**

Information/Detail accurate on the date provided: 16, August 2022
