

## Freedom of Information Request FOI 23 58

### Water Carriers

#### Query and Response:

Please can you provide me with information for the replacement of water carriers currently on fleet.:

What Chassis has been ordered for the new Water Carriers (Including Make Model)?  
**DWFRS have ordered 4 x Scania CP17 P360 6x2\*4.**

Who is the body builder for water Tank?

**The successful contractor for this vehicle is Angloco, the water tank will be fabricated by a sub-contractor to them, Angloco use more than one supplier for this so at this stage it is unknown who will fabricate the actual tank.**

What is the timeframe for chassis/tank build?

**Currently the time frame for build will be 27 weeks from delivery of Chassis.**

Expected delivery to DWFRS and expected roll out to stations.

**The vehicles are expected to be delivered by the 31st March 2024.**

Which station locations are these going to?

**Royal Wootton Bassett, Wilton, Poole and Bridport.**

**All dates are indicative and subject to changes because of the current fluctuations in the market and supply chains.**

Information/Detail accurate on the date provided: 30, 05 2023
