

Freedom of Information Request FOI 23 69

Fire stats for electric vehicles

Query and Response:

I am wondering if you could share the number of electric vehicle fires that Dorset & Wiltshire have attended over the last five years.

We don't distinguish between electric and combustion engines within the Incident Recording System. We searched the incident narrative for electric cars, but there were no matching results going back the 5 years.

Information/Detail accurate on the date provided: 27, June 2023
