

Freedom of Information Request FOI 23 72

Reports of whistleblowing

Query and Response:

My request relates to how many reports of wrongdoing have been made as Whistle blowing (or termed protected disclosure under legislation)

1. For the year 2020, how many reports of whistle blowing did you receive ? **DWFRS received 1 report of whistleblowing for the year 2020.**
2. For the year 2021, how many reports of whistle blowing did you receive ? **DWFRS received 2 reports of whistleblowing for the year 2021.**
3. For the year 2022, how many reports of whistle blowing did you receive ? **DWFRS received 1 report of whistleblowing for the year 2022.**
4. How many serving officers do you currently have ? **Clarification was requested on the 20th June to identify what the term serving officers meant, as no clarification was received we have broken down the staff groups into wholetime operational staff, on call operational staff and total staff.**

DWFRS currently (correct as of 22/06/23) employ 399 Wholetime operational staff and 603 On Call Staff. We have a total of 1361 staff across all staff groups. Please note that this number includes those on dual roles (so if they have more than one role they will count more than once) but excludes agency staff and employees on secondment outside DWFRS.

Information/Detail accurate on the date provided: 27, June 2023
