

## Freedom of Information Request FOI 23 88

### Disposal of Super Pumping Appliances

#### **Query and Response:**

Further to my request could I obtain the following to be inclusive of this request so we can identify the actual vehicles being disposed of.

Registration numbers of all the Super Pumping Appliances, If this information can't be divulged then, Vehicle make, model & year of registration. and where possible which quarter they are scheduled to be disposed of.

**We are unable to provide you with the requested information because the provision of registration numbers, vehicle details and to declare in which quarter cannot be forecast as all disposals are fully reliant on the completion of new vehicle replacement projects.**

DWFRS also cascade our vehicles following, and are all subject to, an individual asset condition and use check.

All our vehicles that hold any sort of residual value are resold via our preferred auction house – Brightwells Auctions, and can therefore be monitored via their website <https://www.brightwells.com/>
