Unimog Information

Query and Response:

Has the Wareham fire station Unimog (numberplate: AE09 HWB) been/going to be replaced as I saw a video on social media (July 15th) which introduced a new off road 4x4 pump for the open day.

Wareham's Unimog is being replaced 'like for like' and is due into service by March 2025. The new Scania 4x4 (Papa 4 Appliance) seen during the open day is located at Poole Fire Station.

Information/Detail accurate on the date provided: 17, July 2023
